# Anliker GSM 5

Brunner's leading product

Built for use in professional kitchens, allowing the user to produce a wide range of intricate cuts

including Juliennes, Brunoises, Wave cuts and Waffles, quickly and efficiently. A healthy way to prepare and preserve a multitude of fruit and vegetables.

**BRUNNER  
ANLIKER**

swiss  made

# In Production Since 1964

Over 50 years of successful development has perfected a high-tech and efficient piece of catering equipment

# Five Key Advantages of the Anliker

---

- The Drawing Cut
- Glass-fibre Technology
- Maintenance-free Motor
  - Easy to Clean
  - Swiss Made

# The Drawing Cut

---

- Fruit and vegetables are undamaged after cutting, have a longer shelf life and retain their nutritional value
- The blades are of crafted knife steel and made by hand
- The quality means less motor power and speed are required for good quality cuts
- The **Anliker** consumes less electricity than any other vegetable preparation machines

# Glass-fibre Technology

---

- Dishwasher proof
- No more oxidation
- Resistant against natural acids and a wide range of chemicals
- The cutting discs are crafted from antimicrobial active material, a world-first setting new standards in kitchen hygiene

# Maintenance-free Motor and Planetary Gear

---

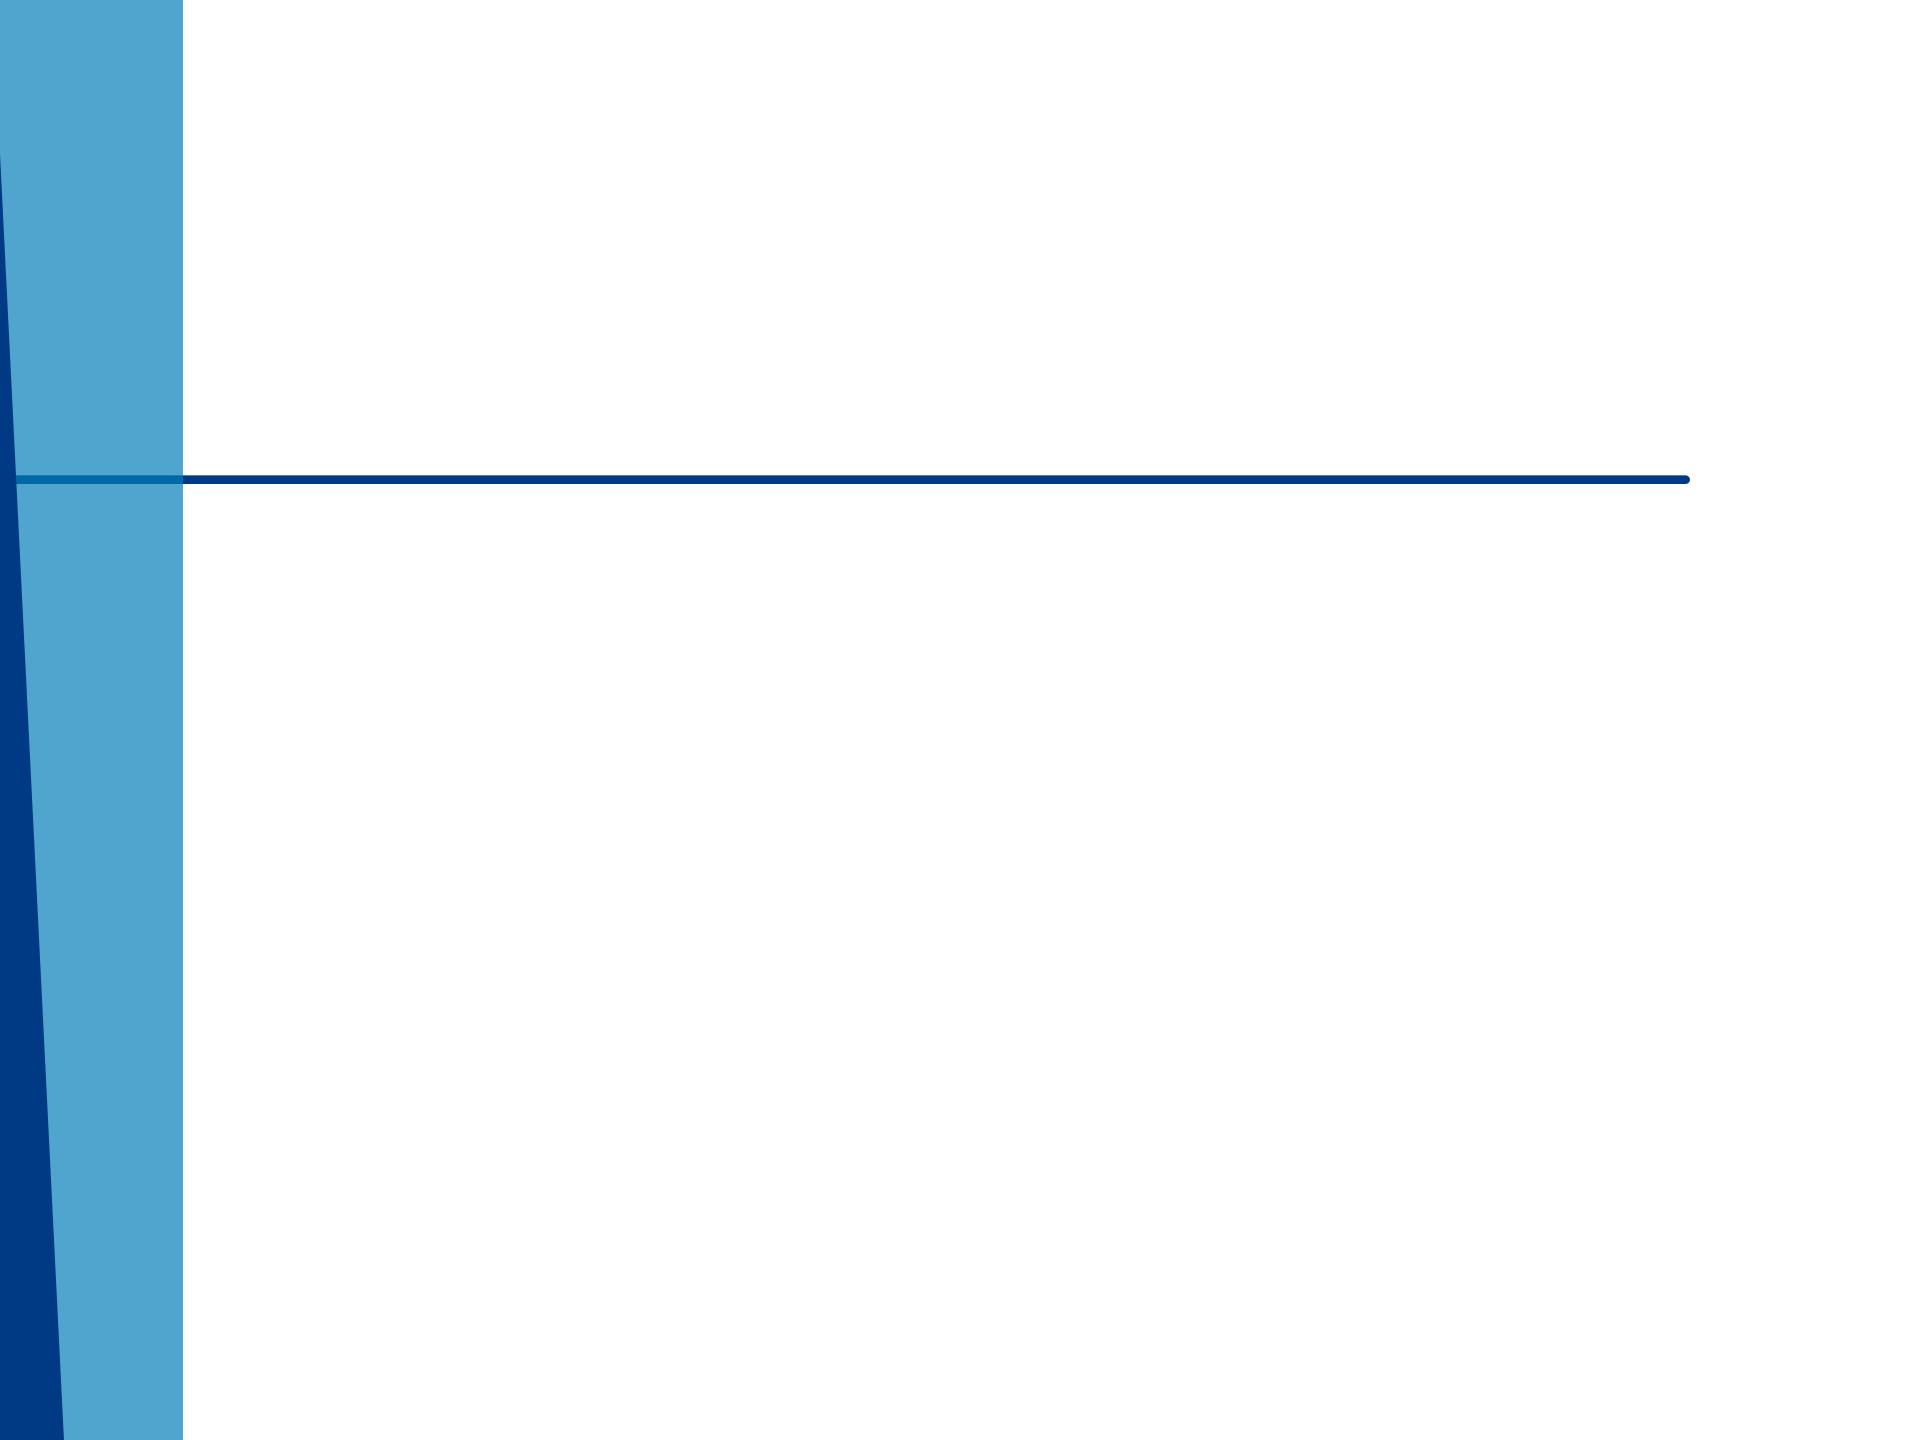

- The motor and gear box are maintenance-free and do not require frequent servicing
- The **Anliker** is robust, sturdy and built for heavy duty production
- **Brunner** are so confident in their products and provide a 5 Year Warranty on the motor and gear box

# Easy to Clean

---

- Dismantle with minimal effort
- The stainless-steel cutting head is dishwasher-proof
- No awkward corners, for fast and simple cleaning

# Anliker GSM “XL”

- Runs at up to 300kg/hour
- Caters for approximately 600 covers
- 240mm diameter cutting discs
- Ergonomic working positions

# Anliker GSM Multicut-240

- Up to 600kg/hour
- Large filing hopper
- Ceramic coated
- Quick disc exchange
